

Skin and body care

DESCOMED

Skin cleansing foam

- With allantoin and panthenol
- Rapid and mild skin cleansing of bedridden patients, incontinent patients and patients with anus praeter
- Deodorising effect

Product description

DESCOMED skin cleansing foam is a ready-for-use foam for mild skin cleansing and skin care, especially for bedridden patients. DESCOMED skin cleansing foam is pH skin neutral.

Due to very mild cleansing agents DESCOMED skin cleansing foam is well tolerated by the skin and mucous membranes. DESCOMED skin cleansing foam is especially suitable for very strained and irritated skin as it can be used without water, soap or washing lotions. It leaves a nourishing protective layer on the skin.

The provitamine D-panthenol eases skin irritations and redness and offers special care for chapped skin. The foam has an excellent moisturizing effect and absorbs quickly into the skin due to its small molecule structure. Together with allantoin the moisturising effect supports the regeneration of extremely strained skin.

Range of application

DESCOMED skin cleansing foam is suitable for the mild skin cleansing and skin care without using water, soap or washing lotion. Especially

suitable for very strained and irritated skin of bedridden patients, for incontinent patients and for patients with anus praeter. Descomed skin cleansing foam can also be used for baby care.

Application

For lathering place the bottle (valve) diagonally down. Allow the product to take effect onto the skin shortly and afterwards wipe the lather off with a clean and moist cloth. Shake bottle before use!
